

Circus Coming Here Tomorrow

Oh, joy, oh, god!
The big double circus is coming to Amarillo to show Monday afternoon.
Yes sir—on the two hours of tomorrows five gayly painted trains will arrive bringing Ringling Brothers and Barnum & Bailey combined for the first time since America's two big shows were consolidated. It will roll into the yards of the Santa Fe from Abilene where two performances were given yesterday.

The main tent program opens with a grand introductory pageant magnificently costumed, complete with nursery tales enacted in pantomime by hundreds of story book characters. A hundred shows in five times as many original stunts provide no end of fun for juvenile patrons.

Tomorrow's performances will begin at 2 o'clock and the doors to the mezzanine open an hour earlier.

Seats will be on sale throughout Monday morning at Collins drug store, at the same price charged at the show grounds.

AMARILLO REAL ESTATE BOARD IS LIVE ORGANIZATION; IT HAS ACCOMPLISHED MUCH FOR CITY

By ROYCE P. GAUT.

Since the organization of the Amarillo Real Estate Board in February 1920, the organization has been the dominating body in appreciating real estate values in Amarillo and stabilizing such values. There has probably been more real estate change hands in Amarillo during the last five years for the same period of time in the history of the city, and we are yet in our infancy, with only the foundation laid for the most substantial progress within the next five years that any city has ever experienced.

Amarillo five years ago with a population of 12,000 was considered a good town. Since that time with the discovery of the world's largest gas field at our door, with a very probable oil field in the same production, Amarillo has totalled in cost over \$500,000 within the last year in addition to a plant manufacturing the best brick to supply cheap building material, with other smaller factories, Amarillo today with her 29,000 live wide awake, boasting citizens in recognized as the capital of the Panhandle, and the coming city of the Southwest.

Building permits covering the last five years total over \$7,500,000. About 1921, the permits were approximately \$1,300,000, though this year a banner in this city, was considered a year of financial crisis throughout the nation. Amarillo will accomplish more the next five years than she has in the past fifteen.

Helped Get Voted.

Upon the organization of the Amarillo Real Estate Board affiliation was immediately made with the State and National associations and the Board members rightfully deserve high standing as "Brokers" which they have gained in the minds of property owners and investors upon this stand for square dealings and against unethical transactions. Among recommendations and cooperation given the City and County Administrations the Board advanced the idea of constructing a stadium at the intersection of the Rock Island Railroad on West Sixth street, which is being completed at this time, that will be a great life and property saver in the future.

The local board has always sent a representative to the State and National Conventions, and on two occasions delegates were sent to San Antonio in the interest of the Model License law which is still pending and will be pushed by the Texas Association of Real Estate Boards in an effort to become a law. Fourteen states now have such laws, protecting the property owners and public generally from the unscrupulous agents, requiring in most bills a bond of \$1,000 made to the State to safeguard the funds and forfeit money handled by the firms in real estate transactions.

To Have Good Crowd.

The delegation from Amarillo which will attend the State Convention in El Paso, September 25, 26, 27, will no doubt be the largest representation from any city of the State. This party of live wire Realtors promises to put Amarillo and the Panhandle on the map as usual at the State Convention and to back up the proposition will invite the State Convention to Amarillo in 1924, at which time they will welcome the State Realtors in our new 300,000-

foot worthy is forgotten nor his life's efforts void. The memorial service is crowded with tender memories and informs the solemn moments to impress on the congregation the imperative need of duty and service to God and country.

SCHOOL TO BE OUT HALF DAY FOR BIG SHOW

No school tomorrow afternoon! Makes the kids mad, eh? Such an announcement as that.

Some influential person or persons or else all persons going to school and perhaps teaching too, wanted to see the circus, so Superintendent McIntosh called it a half day.

The afternoon shift of students will not report at all.

Ringling Brothers and Barnum's combined circus will be here for the afternoon only, hence, it will be the only opportunity school children will have to see the big show.

According to these teachers of Judaism, repentance could not be obtained through any other mediation than the personal effort of the sinner to purge himself of his evil thoughts and to mend his evil ways in his own personal effort and the stout resolve to cleave unto God and walk in His ways. Confessing his sins before God with a contrite heart combined with practical efforts to harmonize his deeds with those laws of love and life proclaimed by God, constituted the true repentance and lifted man up from his low estate to the moving presence. Forgiveness is sought not only for Jew but for all mankind.

In modern times a memorial service is included. This service reminds the worshipper that death is a consummation of life and that no one who has submitted bids.

Competitors of Mr. Carlander were: Sammitt and Stut of Dallas, Phelps of San Antonio, Smith & Townes, Amarillo, Castle of Abilene, Campbell of Abilene, and Teague of Lubbock.

Graphite from which pencils are made is imported from Mexico and Ceylon.

YOM KIPPUR HOliest Day TO ALL JEWS

Sunday evening, October 1st, many units with great solemnity the Day of Atonement, or Yom Kippur, the holiest day of the Synagogue. On that evening and again on Monday, from morning till eventide, the Jewish people will gather together for worship in their several synagogues in all parts of the world. Those removed from their family circle in this solemn occasion. Soldiers and sailors of Jewish faith are granted furloughs in order to observe appropriately this holiday. Wherever the Jewish people happen to be, whether few or many, they will come from worldly concerns and give themselves wholly to thoughts of repentance.

More than any other holiday of the synagogue, Yom Kippur revives the confidence of the Jew in the ultimate triumph of God's love and justice. However sadly he has fared, despite misfortune and untold affliction, he rejoices to his synagogue on the Day of Atonement hopeful of God's way and trusting that in the later days none of earth's children shall hurt nor destroy in all His mountain, for the earth shall be full of knowledge of the Lord as the waters cover the sea.

The outward form of observance practised by the Jewish people on this day is abstinence from food and drink. The intent, in order that the worshipper be better disciplined to exercise self-control and direct his actions for the upbuilding and betterment of humanity.

The Day of Atonement can be traced

"The Scout"

In advance of every breaking wagon train came the Scout, scanning the rolling plains for wandering tribes of Redskins. To him the pioneers of a generation ago looked for protection.

Where the Scout once paused, now stands the GREAT WEST MILLS, always searching out choice, selected wheat to grind into GREAT WEST—"The Flour of the Plains."

Let GREAT WEST eliminate "make-day" uncertainties. Test it with your favorite recipes. It always pleases.
